

# Create your own exhibition

Today you are going to learn how to put on your own exhibition.  
An exhibition is a display of objects, pictures facts and stories.

Before we start, look at the displays in your local museum, or use Google Street View to explore the National Museum of Scotland to give you ideas.

Turn the page to start!

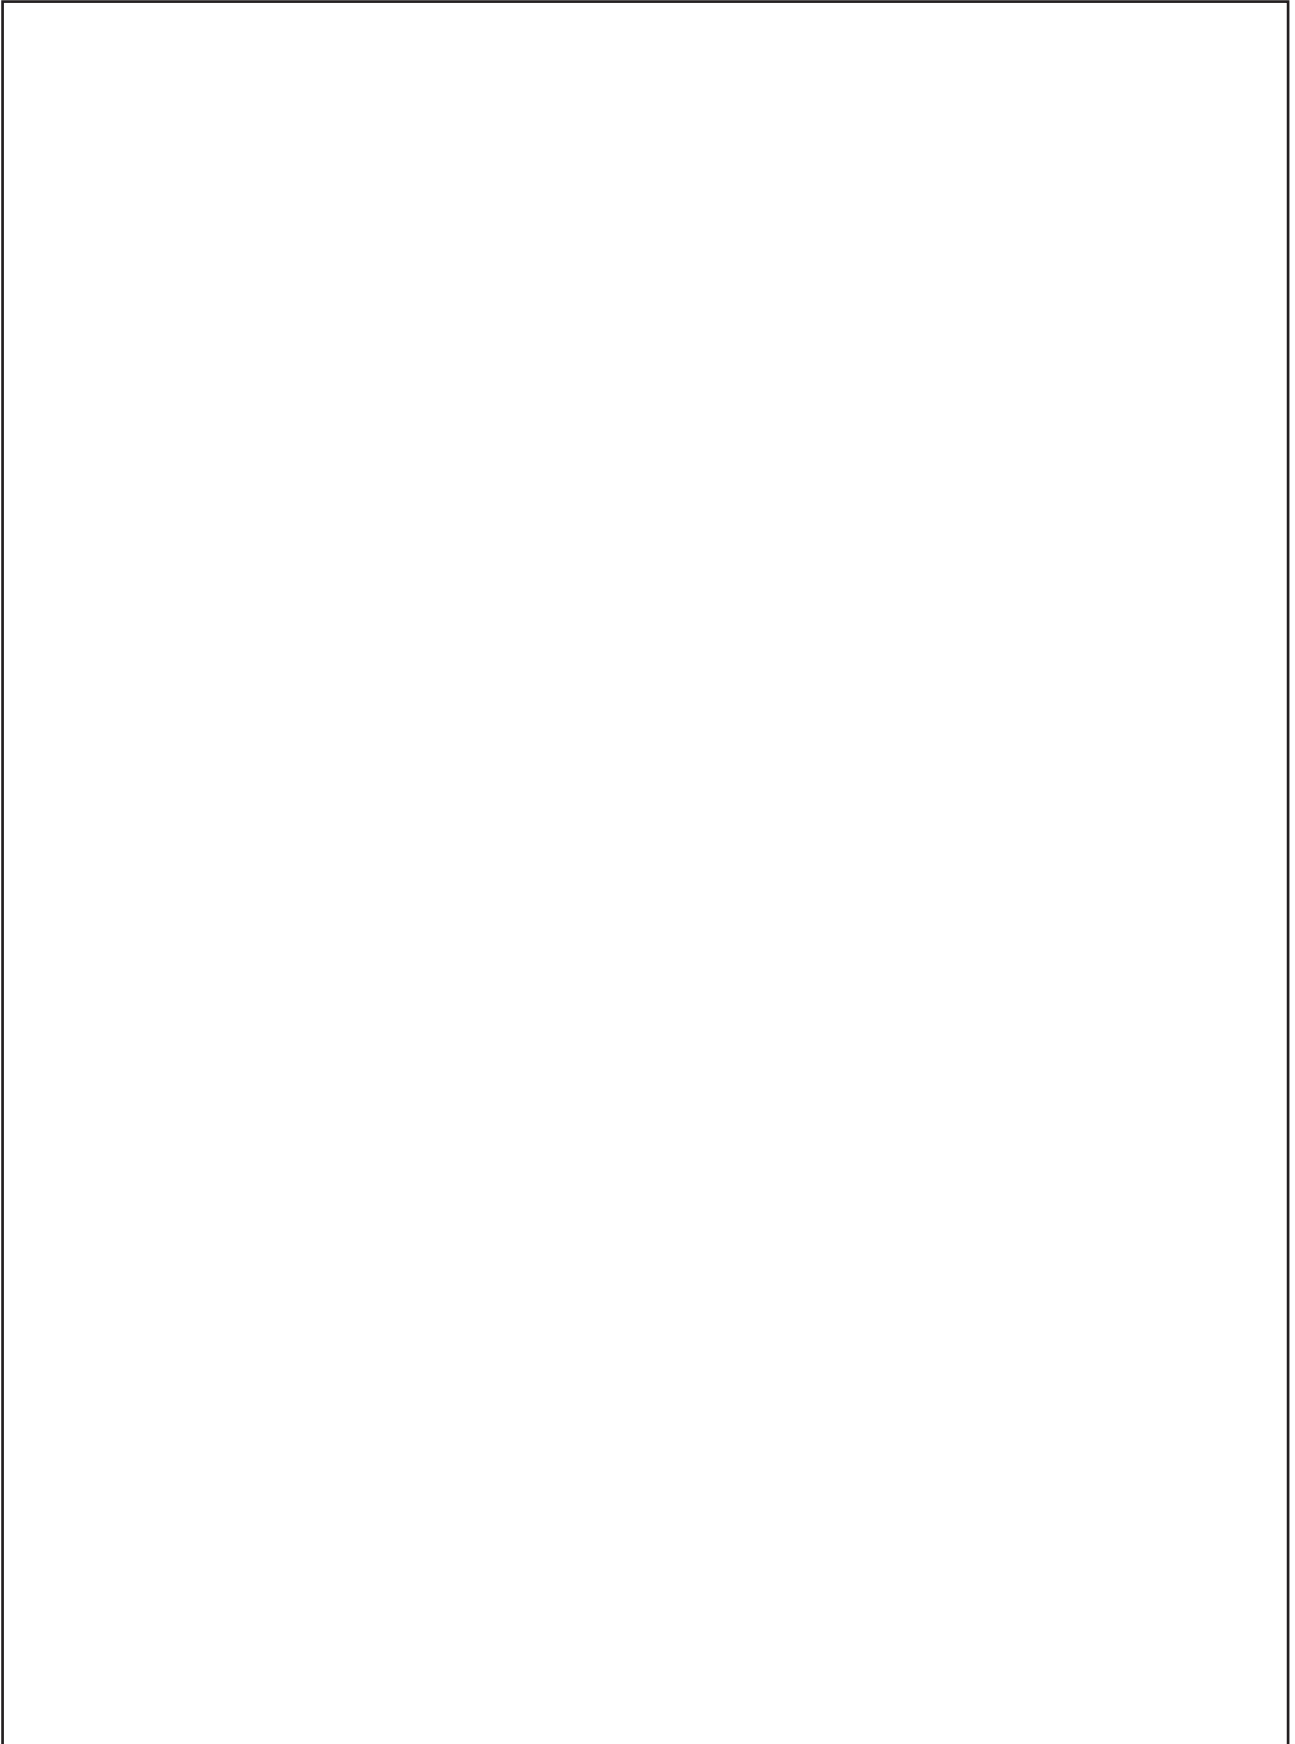

# Think about displays?

What is your favourite display in the museum?

Why do you like the display?

Is there anything you would change about your favourite display?

Draw a picture of your favourite display here!

# What is in displays?

Does your favourite display have?

**Drawings**

**A film**

**Things to do**

**Photographs**

**A story**

**Maps**

**Object labels**

An object label tells you **facts** about the objects, like its name and how old it is.

Choose an object label from your display.

Write down two facts it tells you.

- \_\_\_\_\_
- \_\_\_\_\_

Each display will have a story panel.

A story panel will tell you an interesting story about the display.

What is the story on your panel about?

# How can displays look?

Is your favourite display?

**Colourful**

**Light**

**One object**

**In a case**

**Dark**

**Small**

**Big**

**Lots of objects**

Can you think of any other words to describe it?

How are the objects displayed?

**On stands**

**On a dummy**

**With material**

**Hanging up**

**On the bottom of the case**

Are the objects displayed in any other ways?

Does your favourite display make you?

**Happy**

**Excited**

**Thoughtful**

**Amazed**

**Sad**

**Want to find out more**

# Marketing exhibitions

Posters and banners are used to tell people what an exhibition or display is about, where it is and if it is only on for a short time.

What would you put on a poster for your favourite display?

<b>Title</b>	<b>Image</b>			<b>Logo</b>
	<b>Description</b>	<b>Place</b>	<b>Dates</b>	<b>Ticket price</b>

Think about what object from your favourite display would look good on a poster.

Draw a poster for your favourite display here!
